

1 WHALE - LEVEL 1
38 mm thick; appropriate for beginning swimmers who can self submerge and need assistance with propulsion.

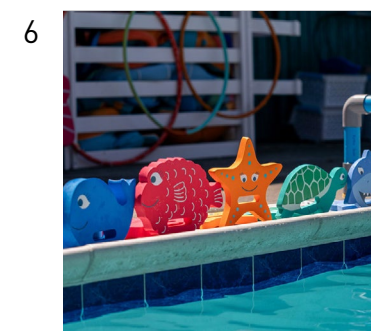

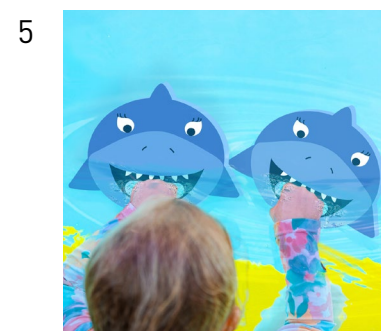

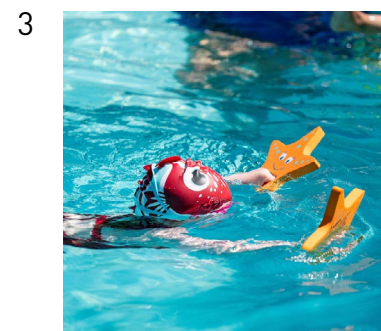

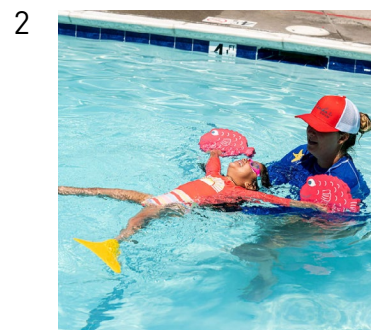

2 PUFFERFISH - LEVEL 2
28 mm thick; appropriate for advanced beginners who can self submerge and propel themselves independently.

3 STARFISH - LEVEL 3
20 mm thick; appropriate for swimmers who can propel with their face in the water and lift their head to breathe to implement rhythmic breathing skills

4 TURTLE - LEVEL 4
15 mm thick; appropriate for intermediate swimmers who still need some assistance with buoyancy and balance.

5 SHARK - LEVEL 5
13 mm thick; appropriate for swimmers who can breathe independently but need some flotation assistance for reassurance.

6 BUNDLE PACK: Includes all five Floatie Friends

PRODUCT DESCRIPTION

Floatie Friends™ are swim aids designed to help children build confidence in the water. These hand floats make it easier for kids to relax, control their breathing, and float independently. They provide a fun way for young swimmers to learn basic skills and gain confidence. Each pair includes two floats, one for each hand. This helps swimmers find the right buoyancy and body position. Kids learn to put their faces in the water and kick to move forward.
